

## GWC Battery Power Supply

This battery power supply enables to use your GWC Inspection System in mobile applications. The total capacity will supply your camera unit for at least 10-16 hours. This unit is lighter and smaller than normal generators and offers noiseless and odourless working. The batterie can be charged via 12V outlet in your vehicle or via 230V mains supply.

Technical data	
<b>Power supply</b>	
Capacity	1500 Wh
Output	1000 W
Peak output	2000 W
Output sockets	2x USB 5V/ 2,1 A 2x USB 5V/ 1 A 1x USB-C PD 2.0 (5V/9V/12V/15V - 3A) AC 230V/ 50/60Hz pure sinus
Charging	ca. 10 h
Input sockets	24V DC (PKW) 230V AC
Temp.-range	0° bis 45° C
Size	37,1 x 16,5 x 36,5 cm
Weight	17,2 kg
